### Senior Software Engineer - Township

Fall 2021 - Winter 2023

- Acted as Tech Lead over multiple projects, communicating with stakeholders and spearheading the planning and execution of sprints.
- Managed a team of 3 engineers working on multiple projects throughout the agency.
- Spearheaded a new onboarding program for junior developers with no/little prior industry experience and offered a mentoring program to all new hires.
- Refactored, debugged, and repaired clients' existing software, solving critical errors and instilling clean code practices.
- Implemented analytics and performance tracking over multiple projects.
- Thrived in a constantly evolving and fast-paced agency environment, working with various languages and frameworks including Elixir/Phoenix, Typescript, React Native, and more.

### Software Engineer Intern - Marin Software

Summer 2021

- Maintained and refactored an angular 2 “legacy” codebase.
- Worked alongside a team of over 100 other developers, in a larger scale development environment.

---
